PROFESSIONAL SUMMARY

Senior Frontend Developer with 10+ years of experience delivering high-performance, accessible web solutions for healthcare, enterprise, and government clients across international markets. Specialized in React, Next.js, TypeScript, WordPress, and Webflow. Proven track record of reducing page load times by 30%, increasing user retention by 25%, and improving team productivity by 40% through scalable CMS solutions. You work directly with the senior developer responsible for audit, strategy, implementation, and delivery — no handoffs, no junior devs. Combines frontend expertise with cloud infrastructure (AWS, Azure) and cybersecurity background (CompTIA Security+) to deliver secure, SEO-optimized digital experiences at scale.

TECHNICAL SKILLS

Frameworks & Libraries: React.js, Next.js, Vue.js, TypeScript, TailwindCSS, Sass/LESS

Tools & Methods: Git & GitHub, Figma, Agile/Scrum, CI/CD, Plugin Development, Cross-Functional Collaboration

EXPERIENCE

Frontend Web Developer **Co-Active Training Institute** — *San Rafael, CA (Remote)* · *Part-time* Sep 2025 – Present

- Manage and optimize a high-traffic WordPress platform serving 150K+ weekly users across 60+ countries, handling performance, security, and stability across 30+ plugins and custom theme configurations. Contract through March 2027.
- Lead web security and site stability initiatives, implementing firewall rules, access reviews, regular audits, and proactive monitoring that maintained 99.9% uptime.
- Collaborate directly with Lead Developer and cross-functional teams (Arlo, Moodle, server ops) to deliver responsive, accessible features and resolve issues across all releases.
- Align technical delivery with marketing and content teams to improve SEO, content workflows, and overall site reliability.

Frontend Web Developer **Truenorth Corporation** — *Santo Domingo (Remote)* Feb 2022 – May 2025

- Drove 25% higher user retention and 30% faster page loads through responsive design, performance audits, and frontend optimization in React and Webflow.
- Built custom WordPress CMS solutions with custom post types and advanced custom fields, boosting cross-functional team efficiency by 40%.
- Delivered 15+ Webflow projects featuring interactive animations, integrated CMS, and advanced on-page SEO strategies.
- Managed Azure-hosted infrastructure, web security, and maintenance for optimal uptime and data protection.

Frontend Developer **D.MED Healthcare Group** — *Germany* May 2021 – Sep 2022

- Designed and built user-centric clinical interfaces using HTML, CSS, JavaScript, and WordPress for a secure patient portal serving 5,000+ monthly users.
- Led a full platform redesign achieving 95% user satisfaction in usability testing, reducing task completion time by 30%.
- Integrated JavaScript-powered dynamic forms that reduced manual data entry and improved clinical workflow efficiency.

IT & Intelligence Analyst **DNCD** — *Santo Domingo* Jun 2018 – Feb 2023

- Reduced organizational vulnerabilities by 35% through systematic security audits, policy updates, and infrastructure hardening.
- Managed 50+ annual security incidents with 25% faster resolution through improved detection and incident response workflows.
- Deployed Azure-based access controls (Active Directory), closing 20% of existing security gaps across the organization.
- Trained 30+ employees on cybersecurity best practices, raising organizational security posture and reducing human-error incidents.

- › Developed 3+ full-stack client platforms using React, Vue.js, and Angular with cloud-based backend architectures, serving diverse business needs.
- › Administered cloud servers and implemented full-stack security measures, achieving high availability and data protection for client-facing applications.
- › Integrated RESTful APIs and managed database operations to ensure seamless frontend-backend communication and data integrity.

EDUCATION

Bachelor’s Degree in Computer Science — Liceo Minerva Mirabal

Jun 2012 – Sep 2015
